

Funding update

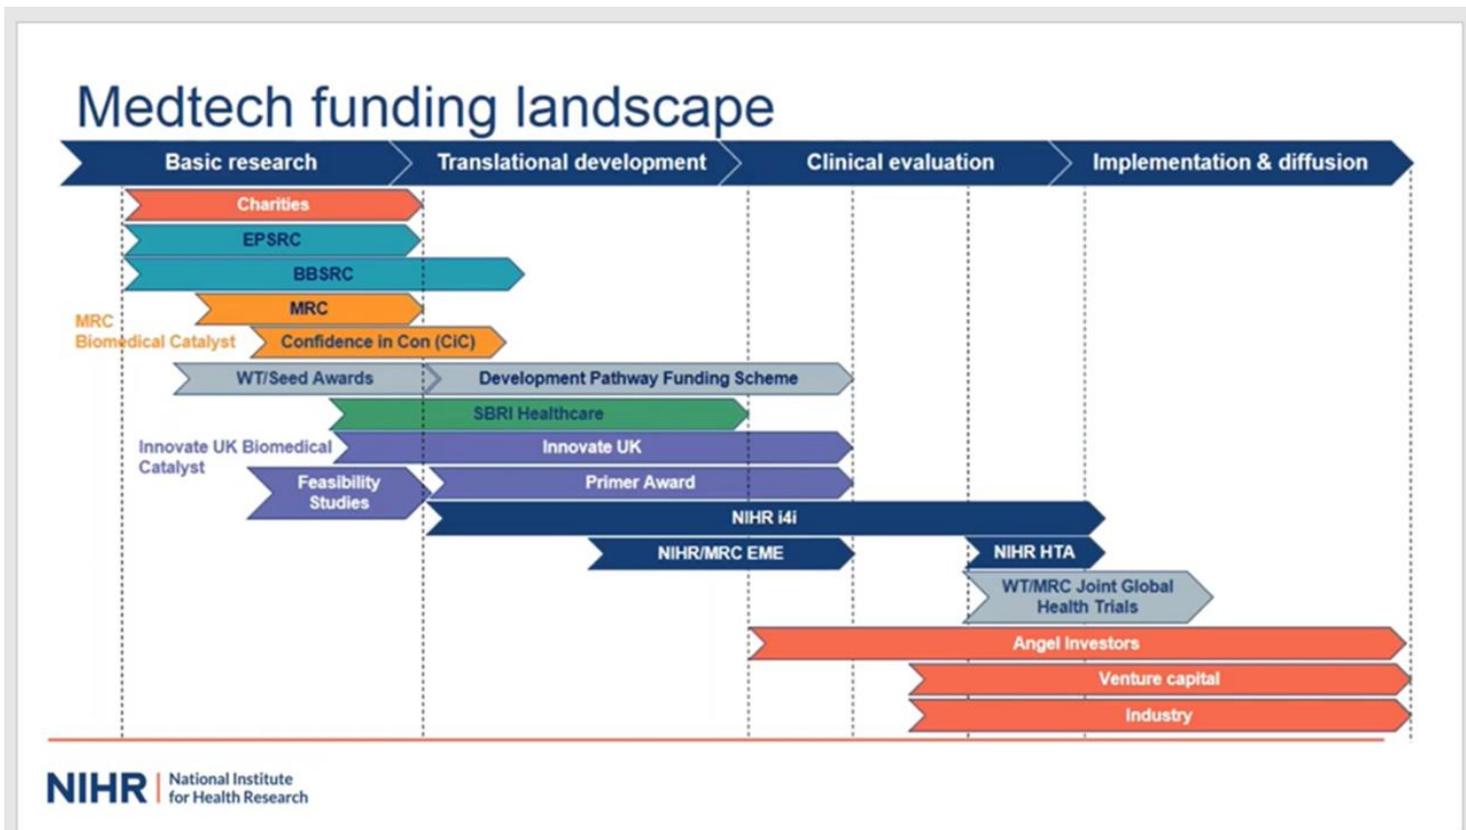

22/03/2021

Innovate UK is the UK's innovation agency. They work with people, companies and partner organisations to find and drive the science and technology innovations that will grow the UK economy and fund opportunities. They are currently developing their five-point plan for the years ahead: Innovate UK [five-point](#) plan.

Name	Summary	Funding	Deadline
Innovate UK Smart Grants January 2021	Innovate UK, part of UK Research and Innovation, is investing up to £25 million in the best game-changing and commercially viable innovative or disruptive ideas. All proposals must be business focused.	£500,000	26/05/2021
SBRI : Improving Hip Fracture Outcomes Using Data, phase 1	The aim of the competition is to improve outcomes for hip fracture patients by developing a system using routinely collected health data and data-analytics techniques.	£160,000	31/03/2021
Knowledge transfer partnerships (KTP): 2021 to 2022, round 1	<ul style="list-style-type: none">The Knowledge Transfer Partnership (KTP) scheme allows a UK registered business or not-for-profit organisation (which we will refer to collectively as the 'business partner' from now on) to partner with a UK higher education (HE) or further education (FE) institution, RTO or Catapult	£75,000	14/04/2021

NIHR is the nation's largest funder of health and care research and provide the people, facilities, and technology that enable research to thrive. They provide significant funding opportunities especially to help with the evaluation of the innovation and research studies associated with it.

Name	Summary	Funding	Deadline
NIHR- Efficacy and Mechanism Evaluation Programme	The EME Programme primarily supports clinical trials, and other robustly designed studies that test the efficacy of interventions. The interventions should have the potential to improve patient care or benefit the public. The programme will only support studies where there is sufficient evidence that the intervention might work in man, i.e. that there is 'proof of concept'. Current calls here include Cystic Fibrosis, Novel strategies to reduce overtreatment, Paediatric Care among others.	Discretionary	None specified
NIHR Evidence Synthesis Programme	<p>The Evidence Synthesis Programme is funded by the NIHR. They support the production of evidence synthesis through three funding streams:</p> <ul style="list-style-type: none">• Technology Assessment Review teams are funded by NIHR to provide NICE with independent research to inform their guidance committees• The NIHR Evidence Synthesis Programme Grant Scheme aims to produce high quality systematic reviews that are of direct benefit to users of the NHS in England. This call runs annually and is not currently open.• The NIHR Incentive Awards are available to Cochrane Review Groups and Campbell Collaboration Coordinating Groups to facilitate, and possibly accelerate review activity that is already planned or under way.	Discretionary	None specified
NIHR Health Services and Delivery Research (HS&DR) Programme	The Health Services and Delivery Research (HS&DR) Programme funds research to produce evidence to impact on the quality, accessibility and organisation of health and social care services. This includes evaluations of how the NHS and social care might improve delivery of services. Current calls here include Cystic Fibrosis, self neglect in the community. Please refer their calls for more information	Discretionary	None specified
NIHR Health Technology Assessment	The Health Technology Assessment (HTA) Programme funds research about the clinical and cost-effectiveness and broader impact of healthcare treatments and tests for those who plan, provide or receive care from NHS and social care services. They have a number of themed calls, please refer their website for more information	Discretionary	None specified

Name	Summary	Funding	Deadline
i4i Product Development Awards	i4i Product Development Awards (PDA) support innovations at any stage of the translational research and development pathway, including the clinical development of laboratory-validated technologies or interventions. This funding stream is researcher-led and does not specify topics for research. Research proposals must include applicants from two organisation types: an NHS Trust, higher education institution or small-to-medium-sized enterprise (SME).	Discretionary	14/04/2021
i4i Connect	i4i Connect is aimed at small-to-medium-sized enterprises (SMEs) in need of a funding boost to reach the next stage in the development pathway. Eligible SMEs may comprise developers of medical devices, in vitro diagnostics and digital health technologies with direct patient benefits, looking to ultimately integrate into the NHS. The funding stream aims to help SMEs get to a point where they can apply for further funding, in particular for an i4i Product Development Award. It also aims to de-risk projects at any stage of the translational research and development pathway to support follow-on investment.	£150,000	Not yet launched
NIHR Programme Development Grants	NIHR Programme Development Grants (PDG) are designed to enable a research team to carry out targeted preparatory work to develop a competitive Programme Grants for Applied Research (PGfAR) funding application. They can also be used to further develop an existing or ongoing PGfAR-funded programme of research.	£150,000	None specified
The Public Health Research (PHR) Programme	The programme funds research to generate evidence to inform the delivery of non-NHS interventions, specifically, we provide new knowledge on the benefits, costs, acceptability and wider impacts of non-NHS interventions intended to improve the health of the public and reduce inequalities in health.	Discretionary	None specified
Research for Social Care	RfSC will fund research which generates evidence to improve, expand and strengthen the way adult social care is delivered for users of care services, carers, and the public. For full details, please see the call specification. Individual projects will be funded up to £350,000.	£350,000	None specified

Name	Summary	Funding	Deadline
Artificial Intelligence for Multiple Long-Term Conditions (Multimorbidity) call (AIM)	The AIM call will fund programmes of research which will use AI and data science methods, combined with expertise in clinical practice, applied health and care research and social science, to systematically identify or explore clusters of disease. In addition to the identification and mapping of new clusters of disease, the call seeks research to better understand the trajectories of patients with MLTC-M over time and throughout the life course, including the influence of wider determinants such as environmental, behavioral and psychosocial factors.	£5,000,000	None specified
Artificial Intelligence Health and Care Award - Phases 1-4	The Artificial Intelligence Health and Care Award supports innovators and technologies across the spectrum of development of artificial intelligence (AI) technology, from concept through to initial NHS adoption and testing of the technology within clinical pathways.	Discretionary	None specified
Artificial Intelligence and Racial and Ethnic Inequalities in Health and Care call	The AI and Racial and Ethnic Inequalities in Health and Care call funds research projects focused on enabling AI and data-driven technologies to deliver better health outcomes for minority ethnic communities.	£500,000	21/04/2021

Name	Summary	Funding	Deadline
NIHR Health Services and Delivery Research (HS&DR)- Health and social care workforce funding call	<p>The Health Service and Delivery Research (HS&DR) Programme is interested in receiving applications for research in the following areas; identifying and evaluating interventions to support the health and social care workforce to develop inclusive leadership practices and embed learning and development needed to deliver transformational changes across the health and social care sector; identifying optimal approaches to skill mix and flexible working; supporting well-being of staff.</p>	Discretionary	03/06/2021
NIHR Artificial Intelligence and Racial and Ethnic Inequalities in Health and Care call <small>UPDATED</small>	<p>The Artificial Intelligence and Racial and Ethnic Inequalities in Health and Care call will supports research to advance AI and data-driven technologies in health in ways that better meet the needs of minority ethnic populations. The call, which is part of the NHSX's NHS AI Lab AI Ethics Initiative, will fund two categories of research:</p> <ol style="list-style-type: none"> 1. Understanding and enabling the opportunities to use AI to address inequalities Funded by The Health Foundation 2. Optimising datasets, and improving AI development, testing and deployment Funded by the NHSX's NHS AI Lab 	£175,000-£500,000	21/04/2021
NIHR Programme Grants for Applied Research - Competition 35	<p>Applications are invited for Stage 1 research proposals to develop individual programmes of research. Research funded through a Programme Grant typically consists of an interrelated group of high quality projects focused on a coherent theme and hence require multidisciplinary approaches, including clinical, health economics, statistics, qualitative and behavioural sciences, to ensure that research objectives can be met. It is currently participating in "BRAIN TUMORS" highlight notice.</p>	Discretionary	07/04/2021
NIHR e-Learning for Clinicians Programme: Competition to develop e-learning resources	<p>The NIHR e-Learning for Clinicians competition can award up to £120,000 per Royal College or standard setting body to develop bespoke online learning resources specifically targeted to develop research capacity in their professional communities. It is expected the e-learning resources will:</p> <ul style="list-style-type: none"> • contribute to research methods • aid in the development of a new community of local clinical research champions, local principal investigators and networked clinical researchers • support research to improve patient care where it is most needed 	£120,000	30/04/2021

Name	Summary	Funding	Deadline
NIHR 21/04 Children and young people's mental health	The Health Services and Delivery Research (HS&DR) Programme is collaborating with What Works for Children's Social Care (WWCSC), and looking to receive applications for high-quality, evaluative research to improve the quality of care, support and access to services for children and young people (CYP) with mental health conditions, including children who have, or have had a social worker.	Discretionary	03/06/2021
Development and Skills Enhancement Award	The Development and Skills Enhancement Award (DSE) provides a maximum of 1 year of funding for post-doctoral NIHR Academy Members to gain skills and experience for the next phase of their research career. As an applicant you will be required to demonstrate the new skills and experience you hope to gain through the award, and how it will benefit your future career in research.	Discretionary	31/03/2021
Programme Development Grants - Competition 30 <small>NEW</small>	Applications are invited for Programme Development Grant funding. Programme Development Grants are designed to increase the rate and number of successful applications for a full Programme Grant by supporting the completion of the necessary preparatory work to suitably position the research team to submit a competitive Programme Grant application. Individual awards are for a maximum of £150k over a period of 12 - 24 months. PDG is currently participating in the following highlight notices: 1. Brain Tumours and 2. Dementia	£150,000	12/05/2021
21/16 Improving support for adult and/or older carers <small>NEW</small>	The Health Services and Delivery Research (HS&DR) Programme wishes to fund high quality, theory-led work on effective approaches to supporting carers. New research of all kinds is needed, but specific priorities have been identified by carers, voluntary groups and others. Some examples of priorities identified include: 1. overviews of what works to reduce social isolation for carers 2. evaluations of models of 'centres' to support carers 3. better ways of identifying and assessing carer support needs, particularly older individuals, and those in marginalised communities.	Discretionary	05/08/2021

Name	Summary	Funding	Deadline
20/142 Prehabilitation: Living with and beyond cancer <small>NEW</small>	<p>We are interested in receiving applications for applied health research studies, to increase the evidence base to support health and care services for people with a new cancer diagnosis, and the role of prehabilitation in their treatment pathway. Research proposals must be within the remit of at least one participating NIHR Programme. Applications which span the remit of one or more of the participating NIHR Programmes are welcomed.</p>	Discretionary	30/03/2021
Public Health Research Programme Rapid Funding Scheme <small>NEW</small>	<p>The Rapid Funding Scheme (RFS) offers researchers the opportunity to apply for funds to conduct rapid baseline data collection, as well as other feasibility work, prior to intervention implementation, for unique, time-limited opportunities such as a natural experiment or similar evaluations of a new public health intervention. The RFS has been set up to provide the public health research community with an accelerated route to funding for small-scale, short and time sensitive proposals that demonstrate a need for a rapid commissioning process to be followed. Funding will be offered, subject to appropriate scientific scrutiny, on the understanding that a full application to support completion of the evaluation will be forthcoming at an appropriate time point.</p>	Discretionary	31/12/2021

Name	Summary	Funding	Deadline
MRC infections and immunity programme grant: May 2021	<p>Programme grants provide large, long-term and renewable programme funding for researchers working in the area of infections and immunity research. They aim to help the medical science community to ‘think bigger’. We award programme grants to UK-based research organisations. Programme grants are usually based within an academic institution which has the variety of expertise and disciplines to undertake the programme. Any UK-based researcher with an employment contract at an eligible research organisation can apply for a programme grant. You will need to show that you will direct the proposed research yourself and be actively involved in the work.</p>	<p>£1,000,000+</p>	<p>12/05/2021</p>
MRC infections and immunity research grant: May 2021	<p>Funding is available from MRC’s Infections and Immunity Board to support focused research projects on infections and immunity. We award research grants to UK-based research organisations. Research grants may involve more than one research group or institution. Any UK-based researcher(with a PhD ideally) with an employment contract at an eligible research organisation can apply.</p>	<p>£1,000,000+</p>	<p>12/05/2021</p>
EPSRC programme grant	<p>Programme grants provide flexible funding to world-leading UK research groups addressing significant research challenges. Programme grants are open to UK higher education institutions, research council institutes, UKRI-approved independent research organisations and NHS bodies with research capacity.</p>	<p>Discretionary</p>	<p>None specified</p>
Healthcare technologies investigator-led grant	<p>Healthcare technologies investigator-led research grants are for researchers at UK higher education institutions, research council institutes, UKRI-approved independent research organisations and NHS bodies. We strongly encourage collaboration with relevant healthcare professionals, other researchers, industry, the public sector and other relevant partners.</p>	<p>Discretionary</p>	<p>None specified</p>

Covid 19 Research Specific grants

Name	Summary	Funding (max)	Deadline
NERC urgency funding	The NERC Urgency Grant scheme exists to provide funding for unexpected and transient scientific opportunities created by unpredictable natural events. NERC welcome Urgency proposals related to the current Coronavirus outbreak. Research must fall predominantly within the NERC remit. Proposals will need to be sensitive to social distancing and other restrictions being brought in as a result of the current situation.	£52,000	None specified
PRACE Support To Mitigate Impact Of COVID-19 Pandemic	PRACE is welcoming project proposals requesting computing resources to contribute to the mitigation of the impact of the COVID-19 pandemic. This applies, without being exhaustive, to the following topics: <ul style="list-style-type: none"> • Biomolecular research to understand the mechanisms of the virus infection • Bioinformatics research to understand mutations, evolution, etc. • Bio-simulations to develop therapeutics and/or vaccines • Epidemiologic analysis to understand and forecast the spread of the disease • Other analyses to understand and mitigate the impact of the pandemic 	Discretionary	None specified
IndieBio Coronavirus Initiative	We are seeking up to 8 startups to receive a minimum of \$250,000 each to pursue the development of diagnostics, therapeutics, vaccines, disinfection, and other solutions addressing the worldwide problem of emerging infectious diseases. Companies who focus on detection may include those that: <ul style="list-style-type: none"> • Improve diagnostic capabilities in speed, cost, or scaling. • Predict negative post-infection sequelae for COVID-19 patients. • Enhance serological testing kits. 	Discretionary	None specified
Global Innovation Fund- COVID-19 response	GIF was set up to confront global development challenges by funding innovations with the potential to improve the lives of the world's poorest people. For those living in developing countries, COVID-19 is yet another of these challenges. In a crisis, the most vulnerable are the ones most at risk. In this pandemic, and the recovery that follows it, GIF will be there to support the innovators and entrepreneurs with the vision to deliver solutions for the world's poorest people.	Discretionary	None specified

Covid 19 Research Specific grants

Name	Summary	Funding (max)	Deadline
UKRI: Emergency route for time-critical COVID-19 research	AHRC, BBSRC, ESRC, EPSRC, MRC, NERC and STFC invite expressions of interest for their emergency route for time-critical COVID-19 research call. This supports short-term time-sensitive collection of data or samples or rapid turn-around research or analysis to either inform urgent policy or national decision making or secure data for future research use.	£80,000	None specified
Google: COVID-19 research grants	Google, in partnership with Harvard Global Health Institute, invites applications for its COVID-19 research grants. These support researchers working on urgent public health challenges associated with COVID-19. Projects focusing on potential treatments, techniques and datasets are eligible. Preference will be given to projects that plan to make their datasets publicly available and referenceable.	Discretionary	None specified
NIHR: COVID-19 urgent public health research	<p>COVID-19 urgent public health research is being prioritised to gather the necessary clinical and epidemiological evidence that will inform national policy and enable new diagnostic tests, treatments and vaccines to be developed and tested for COVID-19.</p> <p>Government support is available to prioritise, coordinate and deliver these studies, regardless of sponsorship and funding source. This support includes expedited identification of sites to ensure appropriate geographical distribution of urgent public health research to maximise recruitment and minimise over-commitment of resource.</p>	Discretionary	None specified
Global Innovation Fund- COVID 19 response	In a crisis, the most vulnerable are the ones most at risk. In this pandemic, and the recovery that follows it, GIF will be there to support the innovators and entrepreneurs with the vision to deliver solutions for the world's poorest people.	Discretionary	None specified

Other Funding streams

Name	Summary	Funding	Deadline
Nesta Impact Investment	Nesta Impact Investments is a £17.6m fund investing in life-changing innovations that help tackle the major challenges faced by older people, children and communities in the UK.	£1,000,000	None specified
Global Innovation Fund	The Global Innovation Fund is a non-profit innovation fund headquartered in London with an office in Washington D.C. that invests in the development, rigorous testing, and scaling of innovations targeted at improving the lives of the world's poorest people. Through our grants and risk capital, we help breakthrough solutions to global development challenges from for-profit firms, non-profit organisations, researchers, and government agencies to maximise their impact and affect meaningful change.	Discretionary	None specified
Accelerator Award	The Accelerator Award is awarded by Cancer Research UK and it enables translational research by funding cross-institutional teams to produce tools, platforms and resources which will transform the research landscape.	£ 5,000,000	Paused
MedTech Navigator Innovation Grants	Key stakeholders need to be involved with medical product development, such as the beneficiary (patient), user (clinician) and buyer (NHS organisation), who often have different interests and requirements. The MedTech NAVIGATOR Innovation Grants are designed to facilitate such bespoke interactions between SMEs and eligible Knowledge Providers, such as an NHS Trust, or a University, during the product development process.	£7,500	09/04/2021

Other Funding streams

Name	Summary	Funding	Deadline
Novartis grants and sponsorships	Novartis can provide reasonable financial support for the general purpose of supporting healthcare initiatives like: improving medical infrastructure, independent educational activities, support for healthcare professional societies, health and medical policy research, and patient group activities. Novartis has a number of medical educational goods and services (MEGS) which are available on request.	Discretionary	None specified
Open Research Fund	This funding supports researchers to develop and test innovative ways of making health research open, accessible and reusable. One can apply to the Open Research Fund if they want to develop, pilot and evaluate innovative approaches that aim to make health research more open.	£50,000	21/05/2021
Innovator Awards	These awards support researchers who are transforming great ideas into healthcare innovations that could have a significant impact on human health. The work that you propose must be essential for developing your healthcare innovation.	£750,000	24/05/2021
2020 TUF smaller research projects fund	TUF will fund projects for patient benefit that seek to improve services and treatments and communications with patients and carers. The outcomes of the study must be measured and evaluated and demonstrate improved care and well-being of patients. They should be Nurse-led and/or clinician-led projects	£10,000	31/05/2021
Healthcare Innovation Grant	They are interested in funding projects that can make a positive and long-lasting change at Barts Health NHS Trust hospitals and have the potential to impact the wider healthcare sector. You can apply with up to 3 co-applicants. They may be external to the Trust, but you'll need to explain why their specific expertise is needed. The focus of the project must be the Barts Health hospitals.	£50,000- £50,0000	08/04 /2021
Major Research Grant	Our Major Research Grants support work on the subject of healthcare- associated infections and infection prevention and control. This grant would be suitable to support a PhD studentship, MD or other research worker and related consumables/equipment, with a preference towards translational research rather than pure science topics. Grants will be subject to satisfactory biannual progress reports.	£99,000	01/09/2021

Other Funding streams

Name	Summary	Funding	Deadline
Research and Development Challenge Fund 'Fast Track' (Penelope and Eugene Rosenberg Awards)	<p>The fund is also able to support smaller grants, through a new rapid assessment process. This 'Fast track' Research and Development Challenge Fund Scheme provides smaller scale awards of between £5K-£10K per project with rapid turn-around time (c. 2-3 weeks for assessment) to allow projects who have immediate needs outside of core R&D Challenge Fund deadlines to access funding. The same criteria will be used as that used by the main fund but without external review.</p>	<p>£10,000</p>	<p>None specified</p>
The Pathway Transformation Fund	<p>The AHSN network is supporting the NHS Accelerated Access Collaborative to help NHS organisations overcome practical obstacles and increase adoption of rapid uptake products (RUPs). The Pathway Transformation Fund (PTF) is available to provide financial support to integrate these products into everyday practice and address issues such as pathway redesign, training staff on how to use new equipment or establishing new data collection methods.</p>	<p>Discretionary</p>	<p>30/04/2021</p>
New Anglia Small Grants Scheme	<p>This offers grants from £1,000 to £25,000 to help you grow your business. These normally cover up to 20% of your total project costs – but can cover up to 30% in some areas of Norfolk and Suffolk.</p>	<p>£25,000</p>	<p>None specified</p>
East Sussex Invest 7	<p>East Sussex Invest 7 fund is an East Sussex County Council (ESCC) and Regional Growth Fund (RGF) programme to support the local economy and create jobs. It is delivered by the County Council in partnership with Locate East Sussex (LES).</p>	<p>£25,000</p>	<p>None specified</p>
North East Business Support Fund	<p>The North East Business Support Fund is tailored to small businesses in County Durham, Northumberland, Tees Valley and Tyne and Wear.</p>	<p>Discretionary</p>	<p>None specified</p>

Regional funding streams

Name	Summary	Funding	Deadline
SoLSTICE (Leics)	Through the SoLSTICE programme, part-funded by the European Regional Development Fund (ERDF) and the East Midlands Academic Health Science Network, we offer support to SME's to innovate products, services and processes. There are a number of funds offered: 1. Innovation Support Grants- to procure external suppliers 2. MedTech Trial Grants- to support clinical trials and evaluation of products	£50,000	None specified

There are various other grants that might align with your business needs which are mostly regional, to be found in the Government website [here](#) under the '*Finance and support for your business*' section. Please tick on the '*GRANTS*' checkbox for better results.

Name	Summary	Funding	Deadline
Health Technology Accelerator Programme	The Health Technology Accelerator Programme (HTAP) is funded by the European Regional Development Fund (ERDF) to support small to medium businesses in the West of England region develop new products or services for the health and life science sector. It provides mentoring and business support, sector specific expertise and networking/ industry collaboration opportunities.	Discretionary	None specified
The Greater Lincolnshire Growth Fund	The Greater Lincolnshire Growth Fund has been created to support the private sector businesses operating in one of the LEP's priority sectors and to add value to other existing funding streams. £2,925,000 of grant funding is available to both Small and Medium Enterprises (SMEs) and larger businesses within the Greater Lincolnshire area who can deliver transformational projects which align with the wider ambitions of the Strategic Economic Plan.	£500,000	None specified
Coventry and Warwickshire business support programme	The Coventry and Warwickshire Business Support Programme is part-funded by the European Regional Development Fund with further support from Warwickshire County Council and Coventry City Council. It is delivered by the Coventry & Warwickshire LEP Growth Hub, County Council, City Council and a wide range of specialist delivery partners. The Programme is part-funded by the European Regional Development Fund.	Discretionary	None specified
Coast to Capital Growth Hub	The Coast to Capital Growth Hub provides free and impartial government funded business support in Greater Brighton, West Sussex and East Surrey area which can help your ambitious and innovative business achieve growth.	Discretionary	None specified
DigitalHealth.London's Accelerator programme	DigitalHealth.London's Accelerator programme aims to speed up the adoption of technology in London's NHS, relieving high pressure on services and empowering patients to manage their health.	Discretionary	Applications not opened for 2021

Name	Summary	Coverage	Deadline
Accelerate Cambridge	Accelerate Cambridge offers a structured approach of three-month programmes that combine entrepreneurship training, regular coaching and mentoring, as well as access to shared workspace. We help teams of entrepreneurs turn an idea into a business, launch, and then keep going. Accelerate Cambridge is part of an ecosystem of support for entrepreneurs in Cambridge and will help you to navigate your way through it and find the resources you need.	National	Spring 2021
Accelerate@Babraham	A new bio-incubator and life science accelerator capability has been launched at the Babraham Research Campus. Accelerate@Babraham is designed to support the earliest stages of new life-science ventures, by providing easy-access laboratory and office space, (the 'bio-incubator') together with supporting programmes of business, science, finance and entrepreneurial mentoring (the 'accelerator') provided by strategic partners.	Regional (Cambridge)	None specified
IMAGINE IF! Accelerator	IMAGINE IF! provides early-stage science startups with extensive opportunities to take your venture to the next level: tailored mentorship, the potential to secure non-dilutive capital, free advice from leading professional service companies and rapid networking across the Innovation Forum's platform.	National	None specified
Biocity Business Accelerator Programme	The BioCity Business Accelerator Programme is an intensive eight-week programme specifically designed to help scientific entrepreneurs launch and grow businesses from their science. You will learn how to 'Lean Start-up', using a set of highly effective tools to identify gaps in your business, evaluate risks and create a business model that stands-up to the scrutiny of potential investors, partners and customers.	Regional	None specified
MedTech Accelerator	The Medtech Accelerator has been set up to facilitate the early stage development of innovations in the broad area of medical technology (devices, diagnostics, software and eHealth) that meet unmet clinical needs within the NHS.	Regional	None specified

Name	Summary	Coverage	Deadline
Healthbox	Healthbox helps organizations drive innovation from the inside and out. Healthbox helps move beyond the hype to develop successful, impact-driven programs. The Healthbox Foundry is a change agent that empowers staff to come forward with ideas to improve the organization and healthcare globally by turning projects into products and employees into innovators. The program retains and maximizes the value of current and future Intellectual Property and builds an organizational identity and culture of entrepreneurial innovation. Healthbox provides a transparent, rigorous, and market-tested approach towards the evaluation and selection of innovative employee-led ideas for mentoring and resourcing.	London	None specified
FFWD Accelerator	FastForward, the UK's Pre-Accelerator Programme (FFWD for short) is an initiative backed by The Accelerator Network and Capital Enterprise to prepare startup teams for first funding and successful application and entry to leading accelerators. Delivered in one-day sprints, over a 6-week period, this interactive, hands-on programme is designed to cover key topics such as Tech, Marketing, Finance, and much more, using a blend of expert speakers and professional industry mentors. FFWD is one of the few pre-accelerators delivered in London for early stage UK tech entrepreneurs. Made up of one-day dynamic sprints over 6 weeks, it combines Lean Startup methodology, practical application of Design Thinking and expert mentor coaching. FFWD helps entrepreneurs validate their MVP, raise pre-seed funding and access London's top accelerators.	National	None specified
Techstars accelerator	Techstars accelerators have one goal: to help entrepreneurs succeed. During each three-month program, we surround companies with the best mentors and an unrivaled network of corporate partners, investors, and alumni. We provide funding and fundraising opportunities, workshops and curated resources, not to mention countless moments where you can learn from your peers. It's a proven model that's helped build thousands of successful companies, all over the world.	National	None specified
Knowledge Transfer Partnerships	The Knowledge Transfer Partnership (KTP) scheme helps businesses in the UK to innovate and grow. It does this by linking them with an academic or research organisation and a graduate. A KTP enables a business to bring in new skills and the latest academic thinking to deliver a specific, strategic innovation project through a knowledge-based partnership.	Discretionary	None specified

Name	Summary	Deadline
Procurement for the provision of Endoscopy Services to Oxfordshire Clinical Commissioning Group <small>NEW</small>	Oxfordshire Clinical Commissioning Group (the Commissioner) seeks to commission a Community Endoscopy service for patients registered with a GP in Oxfordshire. The successful provider will deliver a safe and clinically effective service that will provide rapid local access to diagnostic endoscopy for patients that will include gastroscopy, colonoscopy and flexible sigmoidoscopy. The aim is to provide access to endoscopic diagnostics in the community. The Provider will work closely through regular contact and feedback with primary care, secondary care and the commissioner to support the management of patients within the primary/community care setting. The initial contract term will be for 3 years from 6th January 2022, with an optional extension of any period(s) up to a maximum of a further 2 years, as defined and at the discretion of the commissioners. The financial envelope is £3.1 million per annum.	19/04/2021
NHS Continuing Healthcare Domiciliary Care Service in Derbyshire - Window 4 <small>NEW</small>	NHS Derby & Derbyshire CCG are commissioning a Domiciliary Care Service on an AQP basis. This will be the fourth window. The Service covers Home Care (Domiciliary Care) in Derbyshire and will be provided for people (Service Users) who have been determined by the Commissioner as having an NHS-funded continuing care entitlement. The Provider will ensure that the services can be provided 365 days per year, 24 hours a day and in accordance with a Service User's Care Plan.	09/04/2021
NHS Leeds CCG Domiciliary Care for Continuing Healthcare <small>NEW</small>	<p>NHS Leeds Clinical Commissioning Groups are inviting interested providers to apply to be part of the Approved Provider DPS for the provision of domiciliary care for people eligible for Continuing Healthcare (CHC) and including Fast Track / End of Life Care in Leeds. The purpose of domiciliary care services is to support adults (aged 18 and over) assessed as eligible for Continuing Healthcare (CHC) and registered with a Leeds GP, or resident within the boundaries of NHS Leeds Clinical Commissioning Group (CCG). The domiciliary care service is to enable CHC eligible service users to remain in their own home, living as safely and independently as possible and will involve the provision of some or all of the following:</p> <ul style="list-style-type: none">• Personal Care• Health Care (where the Provider has been approved to offer health care level services)• Rehabilitation/Maintenance of independent living skills• Domestic tasks including shopping, laundry and meal preparation• Carer support, including night sitting and respite care• Support for service users at the end of life (these are usually identified as Fast Track funded)	31/05/2022

Name	Summary	Deadline
Application for a Care Home Contract <small>NEW</small>	<p>NHS Kernow and the Cornwall Council are pleased to invite care home providers to join the new joint contract for care home services from the 1st April 2021. The aim of care home service is to ensure people have access to good quality care, support and accommodation that can enable them to meet their health and social care needs and outcomes twenty-four hours a day, 365 days a year.</p>	Not specified
C001875 Delivery of a national Dementia Champions Programme for acute general hospital staff via Digital/Remote approach <small>NEW</small>	<p>Design, delivery and evaluate a national dementia champions programme for acute hospital care staff commencing in September 2021 for circa 150 participants. It is suggested that the programme is delivered over a 6-month duration. On completion of the programme the following aims should have been achieved:</p> <ul style="list-style-type: none"> • Participants demonstrate the knowledge, skills, values and attitudes at the enhanced level of the Promoting Excellence Framework. • Participants are enabled to: lead front line improvements in dementia care; sustain change in their area; cascade information and education about dementia to other staff. 	31/03/2021

PRJ-946 Wheelchairs and Orthotics Service in Northamptonshire <small>NEW</small>	<p>NHS Northamptonshire CCG (hereafter referred to as "the Authority") is seeking to commission a Wheelchairs and Orthotics service ("the Services") in Northamptonshire. The service includes assessment and reassessment, provision (production and fitting) and the review, repair and maintenance of orthoses. The provider will offer a comprehensive range of assessments and orthoses for patients tailored to take into account the needs of the local population. The contract term is a period of 3 years with option to extend up to 2 years. The annual contract value for each service is circa £1.9 million (excluding VAT). The combined annual contract value is £3.8million (excluding VAT).</p>	12/04/2021

Local enterprise partnerships (LEPs) are voluntary partnerships between local authorities and businesses, set up in 2011 by the Department for Business, Innovation and Skills to help determine local economic priorities and lead economic growth and job creation within the local area.

If you are looking for business funding, support or guidance, please contact your local [Growth Hub](#). If you wish to engage with LEPs or have a product or service which may be of interest to them, please use the list of LEPs below to be taken to each LEP's home page where you will find their contact details.
